## **About Our Company**

Hawaii's Simple Gourmet is the bridge between natural farmers and the conscious consumer. Natural farmers grow what they grow with a passion and demand quality over quantity. Most of the highest quality food producers eat what they grow and are not business people. The conscious consumer seeks high quality foods, grown local, chemical free and with pride. We are here to connect the two together. Hawaii's Simple Gourmet now offers these farmers' superior delicacies, so you too can enjoy them as much as the farmers themselves!

We are based on the Big Island of Hawai'i!
